

Fifth India-Taiwan Conference on Discrete Mathematics

Chin-Mei Kau

Department of Mathematics, Tamkang University

cmfu@mail.tku.edu.tw

Abstract

ITCDM is a forum for discrete mathematics researchers from Taiwan and India to showcase the recent advances in their respective fields of study. The conference also aims to give registered participants exposure to new avenues of research and a chance to interact with subject experts. Since its inception in 2009, the ITCDM has taken place once every two years, hosted alternately in Taiwan and in India.

Keywords: 5th ITCDM, 2017 ITCDM
